

Technical Data Sheet

Joe's PTFE Lube (Drop) For Wet Conditions

General Description

Scientifically developed chain lube for long riding in extremely wet and muddy conditions.

Properties

Formulated with PTFE to provide low friction, high efficiency and superior fast penetration with very good dust repellency. Build to maintain its initial adhesion to metal parts leaving very thin dry film on lubricated surfaces and eliminating the needs for frequent pit stops. Prolong the life of drive-trains with quiet and smooth gear shifting and with no grease buildup on pulleys. Cleans and lubricates drive train parts while pedaling. Will not harm plastic and rubber parts.

Working Instructions

1. Refer to the MSDS before using this product.
2. Periodically clean drive-train with Joe's Bio-Degreaser. Rinse with water and let dry completely.
3. Shake well.
4. Apply generously while slowly rotating the chain. Avoid contact with brakes.
5. Wait a few minutes before cleaning, for maximum penetration.
6. Lightly remove excess lube with a towel or a rag.

Cleaning Instructions

1. Removed by spraying Joe's Bio-Degreaser and rinse with water.
2. Clean hands with water and soap.

Technical Properties

Property	Value
Color	Blue
Viscosity	175-200 (Cps) sp.2/ V-100
Solids	98±1 (%)
Density	0.86-0.87 (g/cm ³)
Shelf Life	60 months
Packing	60,125,500 ml bottle
Storage	In a cold, dry place
Dilution and Cleaning	Joe's Bio-Degreaser and rinse with water
Hands cleaning	Water and soap
